

About Fremantle

The Fremantle Trust was established in 1992 as a registered charity and not for profit business. It provides first class care and support services that enhance quality of life for people with a range of individual needs.

Our 1,700 dedicated staff are passionate about helping people live life to the full. Fremantle is committed to safeguarding the independence, rights and lifestyle of every individual and believes that those who use our services should be genuinely consulted and fully respected. All services are based on our core values of choice, privacy, dignity, independence, rights and fulfilment.

Fremantle Connect
Our high quality home care service

Connect services range from offering a helping hand through to practical care and assistance during serious illness.

Fremantle's CONNECT service provides the assistance and support for those who wish to continue living in their own home. We offer a bespoke service and personalised care plans for people with all types of support requirements.

We can help with as much or as little as you need, when you want it, how you want it.

Please call us to discuss your individual needs

We will undertake a **free** consultation and assessment with you to understand your exact requirements and draw up a support plan to meet your individual needs.

We ensure **all** aspects of day to day life can be continued from support to do your shopping or meal preparation to keeping up a social engagement.

Well Trained, Professional Staff

Our staff are carefully selected and are all personally committed to high quality care and support and we underpin this with first class training from our award-winning, in-house training centre.

Fremantle Connect staff are supported by an excellent and caring management team, and together with our long standing experience in health and social care, we provide all the tools necessary to allow staff to give that bespoke "one to one" support we pride ourselves on.

We offer a responsive, flexible and unique service. We also offer encouraging support upon hospital discharge and a more empathetic approach to end of life care.
